

**Managing your  
patient population  
just got easier.**

# ACUITYnxt™ ADVANTAGES

- ✓ Streamlines complex administrative managed care tasks, **reducing overhead.**
- ✓ Improves case management and population health analytics for **better patient outcomes.**
- ✓ Configurable, flexible, and automated workflows **enable staff to focus on critical tasks.**

## STRATEGIC INSIGHT

### Elevate Your Managed Care Strategy

When it comes to healthcare, nothing should be left to chance. That's why at Chordline Health, we offer solutions that put your organization's needs and your members first.

ACUITYnxt™ is a fully integrated managed care and population health analytics platform. One of the most robust models in the industry, ACUITYnxt™ securely manages sensitive member information, streamlines and automates workflow and authorization to deliver the highest level of data to efficiently improve patient outcomes. It securely manages sensitive member information, streamlines and automates workflows and authorization for medical treatments, tests, and procedures.

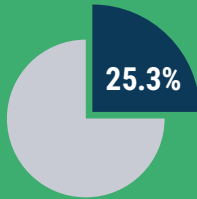

#### ACUITYnxt™ helps organizations like yours:

- Eliminate healthcare silos
- Make data-driven decisions
- Process cases more efficiently
- Protect member privacy
- Improve patient outcomes

### DID YOU KNOW?

Administrative tasks account for **25.3%** of a healthcare provider's working hours.

– Annals of Internal Medicine

Effective case management can **reduce hospital readmissions by up to 20%.**

– Journal of General Internal Medicine

## KEY FEATURES

# Navigating Your Patient Population with ACUITYnxt™

## POPULATION HEALTH ANALYTICS

Use our predictive analytics to identify at-risk populations and manage chronic conditions proactively. Easily generate reports to assess the health status of populations and individuals, allowing for the strategic allocation of resources.

## UTILIZATION MANAGEMENT

Go beyond simple pre-authorization approvals and denials. ACUITYnxt™ creates an auditable trail of activities, showing who accessed records, authorized treatments, or approved authorizations.

## CASE MANAGEMENT

Manual case management processes can be time-consuming and error prone. ACUITYnxt's™ workflows automate these processes, reducing administrative overhead and freeing staff to focus on more critical tasks.

## APPEALS AND GRIEVANCES

Effortlessly oversee appeals and grievances for authorizations, providers, cases, claims, and more. ACUITYnxt provides comprehensive tracking, timely notifications, auto tasking while ensuring compliance with all regulatory requirements.

## CLINICAL PROGRAM SUPPORT

Enhance specialty care programs like diabetes management, and maternal health with customized, data-driven insights. Streamline program planning, assessments, and personalized care plans.

## QUALITY AND RISK MANAGEMENT

ACUITYnxt™ uses stratification and automation to analyze member data, identify specific groups for targeted care, and prioritize them for care coordination and risk management.

## Revolutionizing Managed Care

**Meet Compliance and Regulatory Guidelines:** ACUITYnxt™ supports CMS, URAC, and NCQA standards, easing your accreditation process.

**Improve Quality and Member Outcomes:** ACUITYnxt™ offers assessments, care plans, patient engagement, task management, and standardization of managed care processes.

**Improve Operational Efficiencies and Cost Savings:** ACUITYnxt™ enhances efficiency with smart workflows, automation, and reports, reducing manual work.
